SITUATION SUMMARY

Spill Report# 16-0817: Train Derailment, Mojave, Kern County

On 02/07/16 at 1151 hours, Union Pacific Railroad reported an empty railcar that derailed upright in Mojave, Kern County. There was no hazmat release. Notifications were made per SOP.

Spill Report# 16-0821: Train Derailment, Roseville Railyard, Roseville, Placer County

On 02/07/16 at 1455 hours, Union Pacific Railroad reported a single locomotive that derailed upright within the Roseville Rail yard, Placer County. There were no injuries to crew or passengers and no hazmat release. Notifications were made per SOP.

Super Bowl 50

- The Cal OES State Operations Center (SOC) has been activated at Level 2 today, 02/07/16, to provide enhanced monitoring and support to local government and Cal OES field staff as needed.
- The Cal OES State Operations Center (SOC) will resume Level 1 activation after completion of the game
- Super Bowl 50 activities have started in both San Francisco and San Jose as of 01/30/16, with major city road closures in San Francisco and minimal road closures in San Jose.
- The NFL Experience and Super Bowl City in San Francisco will be closing today before the game.
- · There are numerous events occurring in Santa Clara County before and after the game tonight
- There are two multi discipline/multi jurisdiction conference calls daily, at 0700 hours and 1500 hours.
- San Francisco Department of Emergency Management (SF DEM) is activated from 1100 hours to 2300 hours at level 3 every day starting 01/30/16 and ending on 02/07/16.
- Santa Clara is activated with a Multi Agency Coordination Group (MACG) from 02/05/16 through 02/07/16.
- There are multiple other Departmental Operations Centers (DOCs) and local EOCs activating including a Joint Information Center (JIC).
- The Cal OES Law Branch, Cal OES Fire Branch, Cal OES Coastal Region, and Cal OES Telecommunications staff are actively monitoring and physically supporting all Super Bowl 50 events leading up to and including Game Day.
- · Law Branch is monitoring scheduled protests.
- Cal OES agency representatives (AREPS) are embedded in various Local Government Operations Centers in the Bay Area.

Sixth Street Viaduct Closure, Los Angeles, Los Angeles County

- To allow demolition of the section of the viaduct over US Route 101 on the east side of the structure, the freeway will be closed for 40 hours, starting on Friday, 02/05/16 at 2200 hours and ending on Sunday, 02/07/16 at 1400 hours.
- A 2.5 mile section of US Route 101 will be closed from the 10/101 split to the 5/10/101 interchange just east of downtown Los Angeles. In addition, motorists travelling west on Route 60 from the Pomona area will not be able to access US Route 101.

SITUATION SUMMARY

Weather of Concern

Northern California

· There is currently no weather of concern for Northern California

Southern California

 Combination of strong offshore winds and low relative humidity creating critical fire weather conditions anticipated for most of Ventura and Los Angeles counties

River Forecasts

As of 1855 hours on 02/07/16:

• All River Guidance (Flood Forecast) Points are currently below critical stages.

Cal EOC Incident - 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought

Super Bowl 50 Weather Situational Awareness

In collaboration with local, state and federal partners, the San Francisco Bay Area National Weather Service (NWS) Weather Forecast Office (WFO) will provide enhanced decision support services to Emergency Management partners in support of their public safety efforts around the National Football League's (NFL) Super Bowl 50 and events leading up to the NFL championship game being held at Levi's Stadium in Santa Clara, California.

We will continue to send out a morning email briefing to serve as a broad weather outlook for the greater San Francisco Bay Area through at least Feb 8. If updates are made, an afternoon email briefing will also be issued. Additional forecast briefings will be disseminated based on partner request and/or weather demands.

Weather Summary

- High pressure will be in place through Tuesday delivering dry conditions and sunny skies. The stable conditions will trap pollutants in the sheltered lower levels like San Jose during the early morning hours resulting in areas of haze and air quality indices in the moderate category. Temperatures will be well above normal topping out in the upper 60s to mid 70s for Sunday and Monday. Overnight lows will cool into the 40s at night. Beach hazards for rip currents and large shore breaks will remain in place today with these hazards waning Sunday afternoon.
- Minimal weather impacts expected today, especially around Levi Stadium.
- Biggest change from yesterday's weather will be wind gusts between 10 and 20 mph possible in San Francisco Area between 1000 hours and 1700 hours. Stronger wind gusts expected on the higher terrain and surrounding hills. Some impacts to aviation from gusty northeast winds Sunday morning and afternoon.
- Dangerous Beach Conditions ending Sunday afternoon: Heightened threat of rip currents and large shore break this morning through this afternoon. With the near record highs and many visitors to the area, there will be a concern for dangerous beach conditions.

3 Day Area Forecast for SANTA CLARA (LEVI STADIUM)

Tonight: Clear, with a low around 49. West northwest wind around 6 mph becoming calm in the evening.

Monday: Sunny, with a high near 73. Calm wind becoming northwest around 5 mph.

Monday Night: Clear, with low around 50. Light and variable wind.

3 Day Area Forecast for the Greater San Francisco Bay Area:

Today: Sunny, with highs mostly in the upper 60s. Northwest wind between 5 and 9 mph.

Tonight: Clear, with lows mainly in the upper 40s. Calm wind becoming east northeast between 4 and 7 mph.

Monday: Sunny, with highs mostly in the lower 70s. East wind around 5 mph becoming north northwest.

Monday Night: Clear, with lows mostly in the upper 40s. East northeast wind between 5 and 7 mph.

Tuesday: Sunny, with highs mainly in the upper 60s. Light north northeast wind.

Tuesday Night: Mostly clear, with lows around 50.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

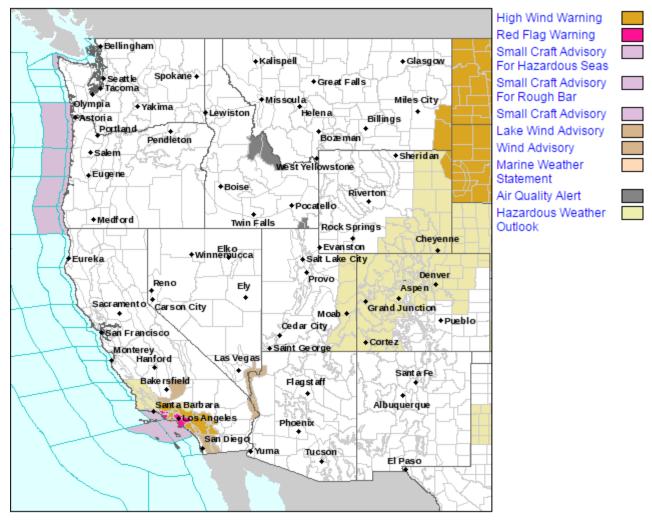

High pressure will bring mostly dry weather and above normal temperatures to northwest California over the next several days. Interior Northern California will be dry for the next with spring like temperatures. Strong high pressure along with offshore flow will result in very mild temperatures across the region the next several days. Sunshine and north winds have brought temperatures into the 70s across much of the Sacramento Valley this afternoon. Daily record highs have already occurred at Red Bluff and have been tied at Redding.

SOUTHERN CALIFORNIA

High pressure and gusty offshore winds will bring well above normal temperatures with possible record temperatures through early next week. The high will weaken towards the middle of the week for a cooling trend, however temperatures will remain above normal. High wind warnings are in effect for the mountains of Los Angeles and Ventura counties including the Santa Monica range. Also included is the Santa Clarita Valley and a portion of the Ventura valleys including Simi valley. Expect sustained winds between 25 and 40 mph with gusts ranging between 60 and 70 mph. Peak wind gusts will be late tonight into Monday morning. Otherwise wind advisories will continue to be in effect for the usual wind prone areas of Los Angeles and Ventura counties. Highs today are expected to reach the lower to mid 80s today.

CAL OES 2014 DROUGHT

Cal EOC Incident - 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services
 for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may
 put the following link to the brochure on their webpage http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.
